COMPETITION SCORECARD RETURN

Please could members **ensure their score card is posted into the box** on completion of a competition round.

Prior to posting cards into the box **all scores must be input into the touch screen computer** when it is in use. Note: This includes entering scores for all holes played when 'no returning'.

Failure to do either procedure delay's the competition result being finalised and published. It creates unnecessary admin for the competition team and causes unnecessary waiting around wondering if the scorecard is forthcoming.

Members' who continually fail to adhere to the above will face a competition ban following a warning from the Competition and Handicap Committee.

Note, this issue is not the normal practice of most members and your continued support in the smooth running of the many club competitions is appreciated.

Finally, …please remember to circle any ②
on the scorecard

THANK YOU
